A MESSAGE FROM THE BOARD

The new English textbook for class III falls under a newly named series 'Butterfly'. This series is meant for Primary level only. This book is thus named **Butterfly: A textbook for class IV**. This book is based on the new curriculum and syllabus framed and recommended by the newly constituted 'Expert Committee' whose responsibility was to examine various aspects of the curriculum, syllabus as well as textbooks for Primary, Secondary and Higher Secondary courses formulated by the respective Boards. The textbook is in line with the vision of NCF-2005 and RTE Act, 2009. Innovatively designed, this series focuses on helping young learners to learn English as Second Language. The book encourages activity-based learning in a child-centric manner. The lively illustrations and activities with multiple levels of challenge make the book interesting and unique. The book aims to develop the four basic skills of language learning viz. listening, speaking, reading and writing in a well-graded manner. The units are woven around a specific theme that caters to various types of learners. We hope this new approach will help learners to develop and strengthen their language skills.

Teachers' guidelines appended at the end of the book help the teachers to enjoy their role as facilitators in the teaching-learning process.

A chosen group of educationists, teachers and subject experts worked hard to develop the textbook. We are grateful to them. The book has been illustrated by a renowned artist. We also thank him for his brilliant job.

Suggestions, views and comments to improve the book are welcome.

FOREWORD

The Hon'ble Chief Minister of West Bengal Smt. Mamata Banerjee constituted an 'Expert Committee' to review entire aspects of school level curriculum, syllabus and textbooks in 2011. The new curriculum, syllabus, and textbooks are developed according to the recommendations of the Committee. The new English textbooks for the primary level fall under a newly named series '**Butterfly**'. We have tried to develop and formulate the textbooks in line with the vision of NCF 2005 and RTE Act 2009. We have shifted from the conventional approach to a child-centric, activity-based approach to learning in this textbook, and the exercises for the learners have been designed accordingly. The vision of the great poet and educationist Rabindranath Tagore has been our major inspiration while doing the work. Rabindranath, in one of his lectures, exclaimed, 'I fled the classes which gave me instructions, but which did not inspire. One thing I have gained, a sensitivity of mind to the touch of life and nature'. We have tried to incorporate many new elements in the textbook to inspire our learners. The textbook ventures to link classroom experiences with life and nature. So we hope to supply our learners with enough materials to develop their sensitivity and provide a holistic viewpoint of life through the textbook. To make their learning joyful we invited famous artists to illustrate the book. We hope this colourful and attractive book will be appreciated by all sections of the society. The textbook is woven around a specific theme. The theme for **Butterfly: English textbook for class IV** is 'faces of Bengal'. A Teachers' guidelines is appended at the end of the book.

We thank the Primary Board, School Education department, Govt. of West Bengal and Paschim Banga Sarva Siksha Mission for their active support. The West Bengal Board of Primary Education is the academic authority of primary education in West Bengal. The committee appointed by the Board has obliged us by giving their approval for this textbook. A chosen group of educationists, teachers and subject experts developed this book in a very short period of time. If the book can help learners to apply the language in real-life situations, we will consider our initiative successful.

The Education Minister Hon'ble Dr. Partha Chatterjee has enriched us with his views and comments. We express our gratitude to him.

We invite all people who love education to convey their views for the improvement of the book.

Thank You.

The Caterpillar Story

Underneath the cabbages

The caterpillar sat.

Drowsing in the sunshine

It thought of this and that.

It led a rather lazy life

Just lying there in style-

When hungry it just nibbled

At the cabbage for a while.

Now, caterpillars have to change

And one day very soon,

It started working steadily

To weave a tight cocoon.

Within this cosy shell it stayed

As days and nights went by.

Then suddenly a split appeared,

Out came a butterfly!

No longer was it lazy

Now it had a pair of wings,

It danced upon the roses

And on many other things,

A lovely little butterfly

Of black and white and red,

Flitting in the sunshine

Till it was time for bed.

Teachers' Guidelines

We must understand that for all practical purposes, the students of any given classroom hardly represent a homogeneous unit. The teachers should expect to meet, and interact with, a classful of students from a wide cross-section of society. Their ability and readiness of reception may vary. This variability of competence must be considered and accommodated in the teaching methodology. This may be effected in a number of ways : (1) peer observation is a process that may be encouraged, where the comparatively advanced learners may be observed and emulated by others; (2) to talk and interact in class, so that the ones who are shy or reticent due to compromised competence get easily noticed and are then gradually helped by the teacher to participate fully in classroom conversation; (3) an environment of equality has to be carefully created within the classroom, and this is the biggest responsibility of the teacher. For the underprivileged child, the classroom must represent a window of liberation, a slice of society where class differences dissolve. This is especially relevant in the context of English teaching as the language still carries invisible links with privilege.

The vision of joyful learning that has received a significant focus in RTE Act, 2009 forms the foundation of the present textbook. The book aims to create an enjoyable atmosphere by providing an abundance of pictures and activities for the students, and it is expected that the teachers will exploit these resources to enrich the learning experience. The rubrics 'On your mark', 'Let's talk', and 'Let's work together' have been designed with the concept of co-operation and collaboration in mind, so that the spirit of belonging and camaraderie helps to enliven the classroom and remove any residual drudgery. All activities are to be transacted within the classroom in an open-ended manner, inviting multiple responses. These are to be done in line with RTE Act, 2009, clause 29(2)(g) that emphasizes upon 'making the child free of fear, trauma and anxiety and helping the child to express views freely.'

Continuous and Comprehensive Evaluation (CCE)

RTE Act, 2009, (Ch.5) suggests that all teachers have to ensure Continuous and Comprehensive Evaluation (CCE) of a “child’s understanding of knowledge and his or her ability to apply the same” [R.T.E. Act, 2009]. It also makes mandatory that “no child shall be required to pass any board examination till the completion of elementary education.” These activities indicate the child’s holistic development which includes his/her knowledge, potentiality and talent. These should closely be monitored through continuous evaluations based on the child’s various activities. Various activities that test the multifarious skills of language are included in this textbook. It may be noted that peer learning and group activity facilitates a CCE round and so remedial work lessons become unnecessary.

As a last word, it may be pointed out that there is no fixed and unique methodology for classroom transaction. The teacher will use the methodology that best caters to the holistic development of the learners.
